

## Randwick Bloodstock's Fillies and Mares For Sale

Dear Melissa,

Please find below our latest listings of Fillies and Mares For Sale. If there is anything on the list that may be of interest, you are encouraged to contact Melissa or myself to get more information.

There may be some very good deals to be had amongst this list, however, you may never know unless your prepared to make an effort. There have been a large number of breeders that have purchased through us over the years and many have done particularly well - see below for three examples within the past 12 months.

For those of you that may still be undecided or require some last minute assistance with your 2010 mare matings or bookings, please feel free to contact me and we will do our best to provide you with some sound advice and/or some of the good deals on offer at this time.

Until next time,

Best Regards,

Brett Howard
