

## Randwick Bloodstock's Fillies and Mares For Sale

Dear Melissa,

Please find below up to date information on Randwick Bloodstock's listings.

ORAIA (by STRAVINSKY) and FLEUR DE L'ORIENT (by THUNDER GULCH), are two very nicely bred mares in foal to FASTNET ROCK (From his first crop he has already sired WANTED, IRISH LIGHTS, ROCK CLASSIC, ROTHESAY, STRYKER, etc. His 2010 yearling average was just over \$190,000). Both mares are half sisters to Group 1 winners and are from female families that have been firing in the past 12-24 months and will only continue to improve. Both mares look physically compatible with FASTNET ROCK, hence, will be expected to produce foals that will look the part. Located in the lower Hunter Valley, ORAIA is due to foal in just over a week's time, FLEUR DE L'ORIENT is due in early October. These two mares are for genuine sale and very realistically priced at slightly more than FASTNET ROCK'S 2010 advertised service fee. I am happy to recommend either mare to any prospective purchaser. Please call me for more information.

Until next time,

Best Regards

Brett Howard

P.S. We still presently have a number of stallion shareholder nominations to sell (see list below). Some of the vendors will be quite negotiable on the advertised fees, so please feel free to fire in a bid. You never know!
